

Course	Title	Short Description
G/T Seminar	Vocabulary	Students will develop a more complex vocabulary specifically tailored for success on standardized tests.
	PSAT Test Prep	Students will learn test taking strategies specific to the English Language Arts and Math portions of the PSAT. Students will also take at least 2 full length practice tests.
	College/Career Readiness	Students will create electronic portfolios of those colleges and careers in which they are most interested. The portfolio will include scholarship information, AP test scores, and programs of study for each school and career path the student chooses.
	ACT Test Prep	Students will learn test taking strategies specific to the English, Math, Reading, and Science sections of the ACT. Students will also take at least 2 full length practice tests.
	Creativity Thinking	The capstone project of GT Seminar I will be a creative project in which students take leadership of project design and execution. This project is intended to allow each student to pursue his or her individual passion or interest.
	Critical Thinking Skills	Students will develop critical thinking skills through logic puzzles, whole-group activities, and Socratic seminars.

	Personal Growth	Students will develop interpersonal skills through group projects and presentations. Students will develop intrapersonal skills through reflection and by setting individual goals for high school and college.
