Core Function:		Curriculum, Assessment, and Instructional Planning			
Effective Practice:		Assess student learning frequently with standards-based assessments			
	IID09	Instructional Teams use student learning data to plan instruction.(107)	Implementation Status	Assigned To	Target Date
<i>Initial Assessment:</i>		Teachers will meet 6 times a year to vertically align standards and select essential standards. Additionally, based on our stagnant reading scores we have selected reading as a focus priority for instruction this school year.	Limited Development 09/24/2018		
<i>How it will look when fully met:</i>		When this objective is fully met all content areas will have curriculum maps that have been vertically aligned with selected essential standards. Test scores and graduation rates should both increase as a result of this professional collaboration. Additionally, reading scores and levels should increase.		Ahna Davis	07/01/2019

Core Function:		High School: Opportunity to Learn		
Effective Practice:		Ensure content mastery and graduation		
	HS06	The school provides all students with opportunities for content and credit recovery that are integrated into the regular school day to keep them on track for graduation.(5516)	Implementation Status	Assigned To
Initial Assessment:		<p>We are in our second year of implementing a content recovery program called "Commitment to Graduate" or "C2G". C2G is a 40 minute time period during our school day where students can be assigned to get extra help in their courses. The student then meets with their teacher and get individualized help to ensure that they pass their courses on the first attempt. Students who are not assigned can use the time to study or go to the gym for physical activity.</p> <p>The first year of implementation was successful with over 98% of students earning enough credits to be classified as sophomores and be on track to graduate on time.</p>	Limited Development 09/24/2018	
How it will look when fully met:		This objective will be fully met when all students end the year with enough credits to be classified as being sophomores. Additional evidence will also include the effect this program has on this group's graduation rate in May of 2022.		Ahna Davis
