

8th Grade Algebra 1 CJHN Peggy Magdaleno

What you need to know:

- Students will have homework. They will need a place to do assignments or an elective at school that gives them time to do assignments.
- This class is a high school credit.
- All math classes at Junior High North have students enter answers online for most of their assignments. So, Internet access is a must for the success of your child.
- This is a challenging and rewarding class.
- This class will cover the Algebra 1 standards, but also make sure students are fluent in the 8th grade standards to be successful on the ACT Aspire.
- Students will take Algebra 1 in 8th grade, Geometry in 9th grade, Algebra 2 in 10th grade, Precalculus-trigonometry, in 11th grade, Calculus in 12th grade.
- Students will start learning how to use the ti-84 graphing calculator. (Wabbitemu is a free android app that emulates a graphic calculator.)
- I care about your child and want them to be prepared for their future!

Advantages:

- Students will be able to take Calculus in high school. If their scores on the AP Calculus Exams are a 3, 4, or 5, they can earn college credit for the class.
- Students are better prepared for success in college.
- This class will help prepare students to take the ACT College Entrance Exam.
