Teachers of the Cabot School District,

During my years teaching at Eastside Elementary, the high school, the middle school, and the junior high, I had the privilege of working with many of you, helping train some of you, and even teaching a handful of you. As Cabot School Board President, I now have the honor of appreciating you during your well-deserved teacher appreciation week.

The students of this district continue to perform at high levels and achieve great success because of the teachers that inspire and educate them. In short, students are successful because you are successful. All of the hard work and long hours you dedicate to this district pays off year after year as the Cabot District and her students are the envy of many. What you do every minute of every day affects many lives for many years.

On behalf of the Cabot School Board, I want to thank you for the early mornings, the late evenings, and everything in between that you give to this district and our students. You are appreciated this week and fifty-one others throughout the year. Thank you, thank you, thank you.

Sincerely,

Donna Nash  
Cabot School Board President
