

4:29F STUDENT INTERNET USE AGREEMENT

Student's Name (Please Print) _____ Grade Level _____

School _____ Date _____

The Cabot School District agrees to allow the student identified above to use the district's technology to access the Internet under the following terms and conditions:

1. **Conditional Privilege:** The Student's use of the district's access to the Internet is a privilege conditioned on the Student's abiding to this agreement. No student may use the district's access to the Internet unless the Student and his/her parent or guardian have read and signed this agreement.

2. **Acceptable Use:** The Student agrees that he/she will use the District's Internet access for educational purposes only. In using the Internet, the Student agrees to obey all federal and state laws and regulations. The Student also agrees to abide by any Internet use rules instituted at the Student's school or class, whether those rules are written or oral.

3. **Penalties for Improper Use:** If the Student violates this agreement and misuses the Internet, the Student shall be subject to disciplinary action. **Note: A.C.A. § 6-21-107 requires the district to have "...provisions for administration of punishment of students for violations of the policy with stiffer penalties for repeat offenders, and the same shall be incorporated into the district's written student discipline policy." You may choose to tailor your punishments to be appropriate to the school's grade levels.**

4. **"Misuse of the District's access to the Internet" includes, but is not limited to, the following:**

- (a) using the Internet for other than educational purposes;
- (b) gaining intentional access or maintaining access to materials which are "harmful to minors" as defined in the District's Internet Use Policy;
- (c) using the Internet for any illegal activity, including computer hacking and copyright or intellectual property law violations;
- (d) accessing "chat lines" or any other form of direct electronic communication unless authorized by the instructor for a class activity directly supervised by a staff member;
- (e) using abusive or profane language in private messages on the system; or using the system to harass, insult, or verbally attack others;
- (f) posting anonymous messages on the system;
- (g) using encryption software;
- (h) wasteful use of limited resources provided by the school including paper;
- (i) causing congestion of the network through lengthy downloads of files;
- (j) vandalizing data of another user;
- (k) obtaining or sending information which could be used to make destructive devices such as guns, weapons, bombs, explosives, or fireworks;
- (l) gaining unauthorized access to resources or files;
- (m) identifying oneself with another person's name or password or using an account or password of another user without proper authorization;
- (n) unauthorized disclosure, use or dissemination of anyone's personal identification information;

- (o) using the network for financial or commercial gain without district permission;
- (p) theft or vandalism of data, equipment, or intellectual property;
- (q) invading the privacy of individuals;
- (r) attempting to gain access or gaining access to student records, grades, or files;
- (s) introducing a virus to, or otherwise improperly tampering with the system;
- (t) degrading or disrupting equipment or system performance;
- (u) creating a web page or associating a web page with the school or school district without proper authorization;
- (v) providing access to the District's Internet Access to unauthorized individuals;
- (w) failing to obey school or classroom Internet use rules;
- (x) taking part in any activity related to Internet use which creates a clear and present danger of the substantial disruption of the orderly operation of the district or any of its schools;
- (y) installing or downloading software on district computers without prior approval of the technology director or his/her designee.

5. No Expectation of Privacy: The Student and parent/guardian signing below agree that if the Student uses the Internet through the District's access, that the Student waives any right to privacy the Student may have for such use. The Student and the parent/guardian agree that the district may monitor the Student's use of the District's Internet Access and may also examine all system activities the Student participates in, including but not limited to e-mail, voice, and video transmissions, with the Student's parents/guardians.

6. No Guarantees: The District will make good faith efforts to protect children from improper or harmful matter which may be on the Internet. At the same time, in signing this agreement, the parent and Student recognize that the District makes no guarantees about preventing improper access to such materials on the part of the Student.

7. Signatures: We, the persons who have signed the internet use agreement form, have read this agreement and agree to be bound by the terms and conditions of this agreement.

Cabot Public School District - Blended Learning Technology Agreement

Introduction

Cabot Public School District is providing students the opportunity to participate in a blended learning model where students are issued chromebook devices for school and home use. This is an innovative approach where learners have access to a rich array of technological tools intended to enhance both teaching and learning.

Terms of Use

Students and Parents/ Guardian(s) must follow the terms, conditions, and policies communicated within this document, in addition to the Acceptable Use Policies defined within the district's Student Handbook. Student issued chromebooks are the property of Cabot Public School District and their use is a privilege, not a right. Disciplinary actions or revocation of this right may be imposed if there is a failure to adhere to these policies. The district reserves the right to collect and/or inspect a device and delete any material or applications deemed to be inappropriate. Student devices may be seized or searched at any time as they are the property of the district.

Acceptance

Before a student receives his/ her chromebook, the student and a parent/guardian must read and sign the signature page of this document as well as the Cabot Public School District Student Handbook. Each document contains acceptable use policies and guidelines which students must follow. Signed forms will be collected when a student receives his/her device.

Student Online Accounts & Privacy Policy

Instruction using technology is often facilitated through the use of e-mail and cloud-based file storage. As a part of the Blended Learning model, students will be issued a Google Apps account which gives them access to email (Gmail), as well as other Google Apps including Google Drive.

- The district will only provide the students first 5 letters of their last name and first initial, and e-mail login name to create each student email account.
- No student will be required or encouraged to provide other personally identifiable information to any online service provider.

Guidelines for Use

Students should abide by all policies defined under the Acceptable Use Policy as documented in the Cabot Public School District Student Handbook Network/Internet Acceptable Use Guidelines.

Use of these devices should be restricted to educational purposes. Any extracurricular use during school time, such as instant messaging, video chatting, video games, etc. is strictly prohibited and can result in disciplinary action, unless explicitly permitted by school administration and/or the student's teacher.

Students should expect no privacy with regard to media or content created or stored on their device. Students will be held liable for inappropriate materials found on devices. If inappropriate materials or applications are found as a result of a search by school officials, a student's chromebook may be wiped and reset to factory defaults. The district will not be responsible for lost files or information should a device be reset to factory defaults. Depending on the content of the inappropriate information, proper authorities may be notified.

An attempt by a student to access files or materials on another student's device is forbidden unless explicit permission is given. Unauthorized use or access to files or information by a student may result in disciplinary action. Students should keep all personal usernames and passwords private and should not give this information to anyone other than a school official.

Use of microphones and/or webcams in the classroom to record and/or post audio or video content to the Internet is strictly forbidden, unless explicitly allowed by a student's teacher for an instructional purpose. Possession, transferring, or uploading unauthorized photographs, videos, or audio recordings is strictly forbidden and may result in disciplinary action or revocation of a student's device.

Student devices are considered a learning tool both in the classroom and at home. A student's device should never be loaned or used by anyone outside of his/her immediate family.

Students are responsible for backing up important files and data stored on their device. The school district holds no liability or responsibility to recover lost, deleted, or missing files as a result of hardware issues, software issues, or any unforeseen occurrence in which files could be lost.

Distribution & Collection of Chromebooks

Chromebooks will be distributed to students at the beginning of each fall semester, or as new students are registered throughout the school year. These devices, and all accessories, will then be collected at the conclusion of the school year for appropriate hardware and software maintenance. In subsequent years, returning students will receive the same device they were issued the previous school year.

Proper Care Guidelines

Proper care and storage of student chromebook devices are the responsibility of each individual student. A proper carrying case is provided, in which the chromebook and all accessories should be stored when not in use. Other care tips include:

- Do not leave or store the device in the extreme heat or extreme cold.
- Do not leave the device in a vehicle or other unsecured location.
- Do not place any item or object on top of the device when not in use.
- Do not eat or drink in close proximity to the chromebook.
- Do not use any cleaning product, including, but not limited to, abrasive cloths, sponges, or liquid cleaners to clean the screen or exterior of the device. Only a soft, lint-free microfiber cloth should be used.
- Do not remove any serial number labels or labels applied by the district.
- Do not drop the device or bump it against any hard surface.
- Do not place or leave the device on the floor where it may be stepped on or tripped over.

Software

The district has installed several licensed applications for both instructional purposes as well as system maintenance. Students should make no attempt to remove or “hack” any application that has been pre-installed on their chromebooks. Any attempt to remove or disrupt any pre-installed applications will result in disciplinary action and the chromebook will be wiped and reloaded to its initial state. The district will not be responsible for any files lost or deleted should a chromebook be wiped and restored to its original state. Students should always be aware that it is their responsibility to backup files to either removable media or a cloud-based file service. Installation of new applications will be limited to software used explicitly for educational or instructional use. Any software installed by the district will be properly licensed. If a student installs or attempts to install unlicensed software on their chromebook, the district reserves the right to remove that software with no financial liability to the district. The district holds no liability for issues caused by student installed software. The district will not be financially liable for lost content, purchased and downloaded by the student, should a hardware or software malfunction accidentally remove or destroy that content.

Web Filtering

Students are expected to follow the policies and guidelines established to ensure adequate Internet filtering while at school and home.

While at home, district Chromebooks will be filtered with software tools, however, parents will be responsible for monitoring the use of the Internet. The district holds no responsibility for inappropriate content accessed outside of school provided Internet access. The responsibility of monitoring Internet access once a student is off school premises and no longer using district provided Internet access will fall directly on the student's parent or guardian. Inappropriate content delivered and/or stored on a student device by the use of Internet access away from or outside of school provided internet may result in disciplinary action if found by school officials.

LCD Screens

LCD screens are extremely sensitive and fragile. Please adhere to the following list of guidelines with specific regard to the LCD screens:

- Do not lean on, press on, or place any object on top of the device when it is closed.
- Do not put any item, including papers, on the device keyboard before closing the lid.
- Do not put any magnet or magnetized object on or near the device or its screen.
- Do not attempt to use any type of pencil, pointer or stylus on the device screen.
- Clean the device screen with a soft, lint-free or anti-static cloth and do not use any liquid or abrasive cleaners or substances.

FINANCIAL RESPONSIBILITY

Damaged, Lost, or Stolen Chromebooks

- Damage, accidental or otherwise, to a chromebook device should be reported to a school official immediately.
- Theft of a device while on school premises should be reported to a school official immediately.
- Theft or loss of a device while away from school should first be reported to local police officials, then reported to school officials. You may be asked by your school to provide an official police report.

- If a device is damaged by another person or student, it should be reported to the office, teacher, or school personnel immediately. Any claim will be investigated by the school district or law enforcement.

Technical Problems & Chromebook Repairs

All hardware or software issues should be reported to the student's teacher. Issues which occur during non-classroom time should be reported to school officials. The district will attempt to repair all hardware and software issues by trained staff or technicians. No charges will be incurred for hardware or software repairs not caused by deliberate misuse or accidents. No one other than district staff members should ever disassemble or attempt to repair any hardware component of a chromebook. Doing so may cause damage and subsequent charges and/or disciplinary actions.

A loaner chromebook device may be provided to a student in the event that their assigned chromebook is kept at school for necessary repairs. In the event that a student receives a loaner device, they will be responsible for the loaner just as if it was their original issued device. Loaner chromebooks will be inspected before and after check out. Should physical damage occur to the loaner device, the student will be financially responsible for any repairs that must be performed in order to restore the loaner device to its original condition.

- **Charges will be assessed** for any damage not caused by unexpected hardware failures which fall under the terms and conditions of the manufacturer's warranty.
- Such charges may result from damage caused by improper use, handling, or intentional or accidental damage.
- Lost chromebooks or accessories will not be covered by the district and charges will be assessed to replace these items.
- Students will not be re-issued another device until non-warranty repair costs have been paid.

Student Expectations

- Students are expected to bring their chromebook devices to school every day, fully charged. There will be limited access to power charging areas in the school. Students will continue to be accountable for the learning in all classes with or without their device. Repeated violations of this policy will result in disciplinary action.
- Students should be prepared to provide their own headphones to be used during instructional time, or have their sound muted to respect all other students, unless explicitly permitted by their teacher.

Cabot Public School District

Blended Learning Chromebook Agreement

We have read the required guidelines for participation in the Cabot Public School District blended learning model and understand our responsibilities in using Chromebook devices, network, Internet and all other applicable technology.

- We agree to follow all policies, procedures and expectations for use as they relate to this program as implemented by Cabot Public School District.
- We further understand our financial responsibility for all equipment which is accidentally or intentionally damaged while in our possession.
- Finally we understand that in order for the District to create an email account for

_____ we give the District permission to share her/his first name, last name and email login name with Google.
